SSAS Services and Fees

No ordinary pension

A Small Self-Administered Scheme (SSAS) is a bespoke pension arrangement for business owners.

Each scheme is registered with HM Revenue & Customs (HMRC) and must comply with various rules to retain its tax advantaged status. Appointing experienced scheme professionals is essential.

InvestAcc has been helping customers establish and operate SSAS arrangements for over 25 years, we offer a personal service, taking the hassle away from you and allowing you to enjoy the benefits of a SSAS without the drawbacks. We work alongside you and your financial adviser; our aim is to provide a polished and professional service to you both.

In this guide we detail the services and fees for either setting up a new scheme or for taking over an existing arrangement. We set our fees at a level which we believe offers considerable value, without compromising service.

Deposits held in the pension scheme bank account may receive interest, please see our website for details of the current rates and terms available. In addition, we may receive payments (currently of up to 0.55% per year) from our preferred bankers based on aggregate cash balances held with them and we will keep these payments for our own account to contribute to the costs of running our business and delivering a high-quality service and products. Note that there is no minimum amount which must be retained in this account and that we can open additional accounts with other banks, without additional fees.

Examples showing how InvestAcc's fee structure works.
