Permitted Investments

Note the requirement of Part 36 of the Pensions Act 1995 that the trustees must obtain professional advice upon the suitability of any investment transaction and consider the need for diversification. That advice must be provided in writing and made available to all the trustees by an expert who is suitably qualified. The adviser must be appointed by all the trustees, including any independent or professional trustee. We reserve the right to refuse any investment for which appropriate advice has not been obtained.

Alterations to our Permitted Investment List

Note that we reserve the right to alter the Permitted Investment List, including adding, removing, or refining the conditions attaching to a particular investment type, without notice. If an investment that was acceptable at the time of purchase is subsequently removed from our Permitted Investment List, then we would not usually insist on a sale of that investment. However, we may prohibit any further purchases of that investment, and this would prevent reinvestments of capital or income, or new subscriptions into an investment that has been removed from our Permitted Investment List. The latest version of our Permitted Investment List is available via our website, or by contacting us at our Head Office using the contact details at the end of this document.
